

Topic/Year	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
Rights Respecting	Understand the concept of rights and responsibilities, identify basic human rights, and explore fairness in everyday situations.	Recognise the importance of respecting the rights of others, identify additional rights, and demonstrate understanding of fairness and equality in different contexts.	Analyse different rights and responsibilities, related to self and others, identify ways to promote and protect rights, and show an understanding of equality and fairness in society.	Evaluate the impact of rights and responsibilities in local, national, or global settings, and reflect on the concept of equal opportunities and diversity.	Form, express and defend personal opinions on rights and responsibilities, apply them in personal, community, and global situations and analyse the potential conflicts between different rights and responsibilities.	Critically evaluate and present arguments on complex rights issues, identify conflicts between individual and group rights, and demonstrate a deep understanding of equal rights principles and advocacy strategies.
Sustainable Development Goals	Understand basic principles of sustainability and recognise the importance of protecting the environment.	Identify and explore different sustainability goals, discuss their significance, and assess actions that contribute to sustainable development.	Analyse the interconnectedness of social, economic, and environmental aspects of sustainable development, and suggest practical actions to promote sustainability.	Evaluate the impact of human activities on sustainability, critically assess local and global sustainability initiatives, and propose strategies to achieve sustainable goals.	Examine the challenges and barriers to sustainable development, evaluate the effectiveness of different approaches, and propose innovative solutions to achieve sustainable goals.	Demonstrate a comprehensive understanding of sustainable development goals, analyse global inequalities, evaluate the effectiveness of international efforts, and advocate for sustainable development locally and globally.
Equality and Fairness	Identify basic concepts of equality and	Understand diverse aspects of equality	Analyse the impact of discrimination and prejudice on	Evaluate the role of legislation and policies in	Critically analyse systemic inequalities,	Explore the complexity of inequality and
